1. ☒ It is not necessary for applicant to provide a separate record of the substance of the interview.

Unless the paragraph above has been checked to indicate to the contrary, A FORMAL WRITTEN RESPONSE TO THE LAST OFFICE ACTION IS NOT WAIVED AND MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a response to the last Office action has already been filed, APPLICANT IS GIVEN ONE MONTH FROM THIS INTERVIEW DATE TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW.

2. ☐ Since the Examiner's interview summary above (including any attachments) reflects a complete response to each of the objections, rejections and requirements that may be present in the last Office action, and since the claims are now allowable, this completed form is considered to fulfill the response requirements of the last Office action. Applicant is not relieved from providing a separate record of the interview unless box 1 above is also checked.

Examiner Note: You must sign this form unless it is an attachment to another form.

Manual of Patent Examining Procedure, Section 713.04 Substance of Interview must Be Made of Record

A complete written statement as to the substance of any face-to-face or telephone interview with regard to an application must be made of record in the application, whether or not an agreement with the examiner was reached at the interview.

§1.133 Interviews

(b) In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for response to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

§ 1.2. Business to be transacted in writing. All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

1. The respondent has provided the information requested for a minimum of 12 months prior to the date of the request, unless he expressly indicates otherwise.

Examiners must advise the inventor of any action taken by the interviewing Board or each interviewing officer after January 1, 1973 where a matter of substance has been discussed during the interview. The action must be appropriate, correct, and stated by the Board or each interviewing officer using a ball point pen. Discussions regarding any procedural matters, such as the filing of a request for an interview, the availability of a new recording is otherwise provided for in Section 412.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below.

o the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephonic interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed, promptly, after the telephonic interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Serial Number of the application
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (personal or telephonic)
- Name of participant(s) (applicant, attorney or agent, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the items identified
- An identification of the agreement, if any, reached
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed to, being allowable) (Agreements as to allowability are tentative and do not restrict further action by the examiner to the contrary.)
- The signature of the examiner who conducted the interview
- Names of other Patent and Trademark Office personnel present

The Form also contains a statement reminding the applicant of his responsibility to record the substance of the interview.

It is desirable that the examiner notify, should he be apprised of his obligation, to record the substance of the interview in each case unless both applicant and examiner agree that the examiner will proceed *ad hoc*. Where the examiner agrees to record the substance of the interview, or when it is adequately recorded on the Form or in an attach sent to the Form, he is urged to check a box at the bottom of the Form informing the applicant that he need not supplement the Form by submitting a separate record of the substance of the interview.

[illegible]

A complete and proper recitation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted.
- 2) An identification of the claim(s) asserted.
- 3) An identification of specific prior art discussed.
- 4) An identification of the principal aspects of amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the examiner.
- 5) A brief identification of the arguments advanced by the applicant. The examiner's view of arguments advanced by the applicant is not required. A general statement of the substance of the amendments and required discussion of the arguments is sufficient. The general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and/or de-emphasize certain points which to him or her might be persuasive to the examiner.
- 6) A general indication of any other pertinent matters discussed, and
- 7) if appropriate, the examiner's view of some of the interview issues already described in the Interview Summary Form completed by the examiner.
